OBJECTIVE

Diploma holder in Information Technology with a 97.15% aggregate, seeking to pursue a B.E./B.Tech in Computer Science Engineering. Skilled in C, C++, Java, Python, and full-stack web development with the MERN stack and Django. Built multiple end-to-end web applications during diploma studies and eager to apply strong programming fundamentals and problem-solving skills to real-world engineering challenges.

TECHNICAL SKILLS

- Languages: C, C++, Java, Python
- Frontend: React.js, HTML, CSS, JavaScript
- Backend: Node.js, Express.js, Django
- Database: MongoDB
- Tools: Git, GitHub, VS Code
- Core Concepts: DSA, OOP, DBMS

PROJECTS

E-Commerce Website | *React, Node.js, MongoDB (MERN Stack)*

- Built a full-stack e-commerce platform with product catalog, cart, and secure checkout flow.
- Implemented user authentication and an admin panel for managing products and orders.
- Designed a responsive React frontend connected to a Node.js/Express REST API with MongoDB.

Hostel Admission Portal | *Django, React*

- Developed a web portal for college hostel admissions, replacing manual paper-based processes.
- Built student registration, room allotment, and application tracking features using Django and React.
- Created an admin dashboard for staff to review, approve, or reject hostel applications.

OPD Management System | *React, Node.js, MongoDB*

- Built a system to digitize outpatient department workflows, reducing patient wait times.
- Implemented appointment scheduling, patient record management, and a doctor dashboard.
- Used React for the frontend with a Node.js/Express backend and MongoDB for data storage.

EDUCATION

Diploma in Information Technology | 97.15% Aggregate, 2026
Government Polytechnic Nagpur - Nagpur, Maharashtra

B.E./B.Tech in Computer Science Engineering (Admission in progress via CAP 2026)
Pune, Maharashtra
